

SQUIRE STH1 High Security Horizontal Padbar

Description

Built to stringent BS EN 12320 European Security Standards, Squire's Stronghold® padbars provide maximum security against attack. Their heavy-duty construction provides a total security solution as part of Squire's extensive range of Stronghold® hi-security products. The STH1 ultra-strong padbars are made of special hardened casting with a specially toughened hasp attachment plate and staple. STH1 padbars are easy to fit and particularly suitable for perimeter gates, warehouse, internal doors, external doors, gates and storage areas.

10 Year Guarantee
