

SQUIRE CP60 Series Recodable 60mm Combination Padlock

Description

The CP60 high security padlock combines a modern and attractive design with very heavy duty construction, offering the best in durability and resistance to attacks. The CP60 locks feature a hardened steel 10mm diameter shackle, a 60mm wide die cast alloy lock body with dual compound cover and 5 easy to use spaced wheels. These robust recodable combination padlocks deliver heavy duty security without the risk of losing keys. The die cast alloy lock body has a dual compound protective cover for high corrosion resistance and excellent weather protection. The CP60's unique recodable double locking mechanism offers 100,000 combinations and has a push button spring opening mechanism for ease of use. Padlocks from this series are particularly useful for gates, vans, large sheds, garages and commercial buildings.

10 Year Guarantee

Combination Mechanism
