

ENERGIZER Vision HD Headlight 250 Lumens

Description

The Vision HD Focus Headlight from Energizer is a weatherproof item that features high quality functions including digital focus and memory recall, which restores focus settings to the last one used. It has a pivoting head and a shatterproof lens as standard. With an adjustable head strap, 3 light modes, maximum runtime of 50 hours, brightness of 315 lumens and an impressive beam distance of up to 80 metres, this headlamp is a versatile choice and ideal for most uses.

Weather Resistant
