

YALE Doormaster Lever Operated Latch & Hookbolt Twin Spindle Gearbox To Suit Lockmaster

Description

A Yale door master twin spindle lever operated latch and hookbolt gearbox with 92/62mm centres to suit Lockmaster.

This is the new version with the round hole "push to snib" feature. If the centre case is being used for a replacement with a snib handle; the handle spindle will still pass through the round hole but won't be needed to activate the snib – you just push the latch head in.

35mm Backset

92/62mm Centres
