

YALE EF-PC PIR Camera

Description

The Yale EF-PC PIR Camera is the ideal security measure for a single room. Compatible with your smartphone, this camera is motion activated and captures still images the moment someone moves around the room in which the camera is installed. The captured images can be viewed using a iPhone/Android Smartphone or via a standard PC Web browser. It is also possible to have the images sent straight to your Smartphone at any time.

2 Year Guarantee
